

DANIEL FELTON.

JANUARY, 3, 1832.

Mr. MITCHELL, (of S. C.) from the Committee on Revolutionary Pensions, made the following

REPORT:

The Committee on Revolutionary Pensions, to whom was referred the case of Daniel Felton, report:

That petitioner served three years in the company of Capt. Mills, fifth regiment of the Massachusetts line; that, besides this, he served one tour of one month, and one of a year, in the New York line; produces a certificate from the War Department of his having been placed on the pension list, under the act of 18th March, 1818, and his name stricken from the list on account of his property; which, by debts due at that time, and which he has since been obliged to pay, has reduced his possessions to a small hovel and two and a half acres of land, which he is unable to cultivate, and which is not worth more than \$197. Recommend that he be placed on the pension list, to commence from the 13th day of April, 1825, when he was stricken from the roll.
